eXo
ENHANCED

What is eXo?

eXo is an exceedingly effective ensemble of cutting-edge chelators, each with their own unique benefits that work in tandem to provide unparalleled efficacy. eXo is a new approach to chelation, utilising compounds which not only improve fertiliser uptake efficiency but also exert their own distinctive positive physiological effects. The compounds contained in eXo are small, intermediate strength chelators, capably holding ions in a neutrally charged state until absorbed through root or leaf apertures and can successfully improve a variety of plant metabolism parameters. eXo is a next generation chelator designed for superb results.

Rates and Guidelines:

Foliar: During generative stage add Fullsterkur to fresh water @ 3mL to 5.5mL per Litre and 5.0-5.8 pH (EC = 0.4-0.8 mS/cm). Apply evenly to the point of runoff.

Fertigation: During generative stage add Fullsterkur to fresh water @ 3.3mL to 16.5mL per Litre and 5.5-6.2 pH (EC = 0.5-2.5 mS/cm).

Warning: May cause skin irritation. May cause eye irritation. Read directions before use. Keep out of reach of children. Agitation may be required prior to application.

Typical Analysis

P _____	2.61% w/v
(P205) _____	5.97% w/v
K _____	5.13% w/v
(K2O) _____	6.18% w/v
S _____	0.81% w/v

Fullsterkur

What is Fullsterkur?

Fullsterkur is a premium bud booster for fast growing plants. Fullsterkur is designed as a generative booster for use in run to waste hydroponic systems but can be utilised in soil systems as well. Luxury levels of Phosphorus, Potassium and Sulfur sustain flower number and density. Fullsterkur provides these three key elements, complexed by biologically active compounds (eXo) to drive massive blooms of the highest quality flowers. For best results use with Renovum Folium, Floralis & Umbra.
