eXo
ENHANCED

What is eXo?

eXo is an exceedingly effective ensemble of cutting-edge chelators, each with their own unique benefits that work in tandem to provide unparalleled efficacy. eXo is a new approach to chelation, utilising compounds which not only improve fertiliser uptake efficiency but also exert their own distinctive positive physiological effects. The compounds contained in eXo are small, intermediate strength chelators, capably holding ions in a neutrally charged state until absorbed through root or leaf apertures and can successfully improve a variety of plant metabolism parameters. eXo is a next generation chelator designed for superb results.

Rates and Guidelines:

Foliar: During vegetative stage add Valens to fresh water @ 1.6mL to 2.2mL per Litre and 4.5-5.0 pH (EC = 0.6-0.8 mS/cm). Apply evenly to the point of runoff.

Fertigation: During vegetative stage add Valens to fresh water @ 1.35mL to 6.75mL per Litre and 4.5-5.3 pH (EC = 0.5-2.5 mS/cm).

Warning: May cause skin irritation. May cause eye irritation. Read directions before use. Keep out of reach of children. Agitation may be required prior to application.

Typical Analysis

Total-N _____ 4.05% w/v
N-NH₄ _____ 4.05% w/v
P _____ 1.99% w/v
S _____ 3.60% w/v

Valens

What is Valens?

Valens is a premium Blueberry foliar fertiliser which has been developed to provide Blueberry plants with the nutrition required to stimulate strong vegetative growth and pruning recovery. Valens boasts optimised elemental ratios delivered by superior natural complexing (eXo), to culminate in an outstanding results profile. Valens increases vegetative vigour, root growth and innate immunity, allowing Blueberry bushes to recover promptly from pruning and to build beautiful canopies. Valens seamlessly integrates into any fertiliser regime and can also be fertigated if desired.
