eXo
ENHANCED

What is eXo?

eXo is an exceedingly effective ensemble of cutting-edge chelators, each with their own unique benefits that work in tandem to provide unparalleled efficacy. eXo is a new approach to chelation, utilising compounds which not only improve fertiliser uptake efficiency but also exert their own distinctive positive physiological effects. The compounds contained in eXo are small, intermediate strength chelators, capably holding ions in a neutrally charged state until absorbed through root or leaf apertures and can successfully improve a variety of plant metabolism parameters. eXo is a next generation chelator designed for superb results.

Rates and Guidelines:

Foliar: 1 - 2.2L per 1000L of water.

Fertigation: 1.4 - 6.8L/ha.

Warning: May cause skin irritation. May cause eye irritation. Read directions before use. Keep out of reach of children. Agitation may be required prior to application.

Typical Analysis

Total N	_____	4.82% w/v
N-NH ₄	_____	0.13% w/v
N-NO ₃	_____	4.69% w/v
K	_____	4.60% w/v
(K ₂ O)	_____	5.54% w/v
Ca	_____	2.28% w/v
Mg	_____	1.08% w/v

Umbra

What is Umbra?

Umbra is an elite vegetative fertiliser for use in all cropping systems. Umbra is designed to improve planting resilience and vegetative vigour in fast growing plants, creating strong canopies and root masses with a high yield potential. Umbra maximises vegetative growth in fast growing seedlings and young cuttings, thereby reducing time to harvest. The superior natural complexing (eXo) contained in Umbra drives unparalleled uptake efficiency, giving your fast growing crop every chance to thrive. Successful cropping starts with Umbra. For best results use with Renovum Folium, Floralis & Fullsterkur.
