eXo
ENHANCED

What is eXo?

eXo is an exceedingly effective ensemble of cutting-edge chelators, each with their own unique benefits that work in tandem to provide unparalleled efficacy. eXo is a new approach to chelation, utilising compounds which not only improve fertiliser uptake efficiency but also exert their own distinctive positive physiological effects. The compounds contained in eXo are small, intermediate strength chelators, capably holding ions in a neutrally charged state until absorbed through root or leaf apertures and can successfully improve a variety of plant metabolism parameters. eXo is a next generation chelator designed for superb results.

Rates and Guidelines:

Foliar: 1.6 - 2.2L per 1000L of water.

Fertigation: 1.6 - 6.75L/ha.

Warning: May cause skin irritation. May cause eye irritation. Read directions before use. Keep out of reach of children. Agitation may be required prior to application.

Typical Analysis

Total-N _____ 4.05% w/v

N-NH₄ _____ 4.05% w/v

P _____ 1.99% w/v

S _____ 3.60% w/v

Valens

What is Valens?

Valens is a premium fertiliser which has been developed to provide Ammonium loving plants with the nutrition required to stimulate strong vegetative growth and pruning recovery. Valens boasts optimised elemental ratios delivered by superior natural complexing (eXo), to culminate in an outstanding results profile. Valens increases vegetative vigour, root growth and innate immunity, allowing orchards to recover promptly from pruning and to build beautiful canopies. Valens seamlessly integrates into any fertiliser regime.
